EDUCATION

UNIVERSITY OF WINDSOR

B.C.S. Honours, Computer Science

FALL 2023–PRESENT | WINDSOR, ON

Minor: Business

Extensive elective coursework in:

- Artificial Intelligence
- Network Security

Honors: Dean's Award 2024–2025

SANDWICH SECONDARY SCHOOL

Ontario Secondary School Diploma

FALL 2019–SUMMER 2023 | WINDSOR, ON

French Immersion Certificate.

SKILLS

Technical Skills

Proficient with:

Python • JavaScript / TypeScript • React / Next.js

Node.js • MongoDB • Supabase • Git / GitHub

Data Structures • Algorithms • OOP • Software Design

Soft Skills

Outstanding:

Trilingual Communicator (English, French, Arabic)

Public Speaker • Leader • Teamwork

WORK EXPERIENCE

Allpac Container | Software Developer

SUMMER 2025–WINTER 2026 | WINDSOR, ON

- Built full-stack e-commerce site using MongoDB, Next.js and Vercel.
- Generated over \$72,000 in revenue through improved online storefront.

University of Windsor | Teaching Assistant

FALL 2025 | WINDSOR, ON

- Taught in-person Python tutorials to 60+ students.
- Explained control flow, functions, debugging, and programming fundamentals.

Sentinel Systems | Software Developer

WINTER 2026–FALL 2026 | WINDSOR, ON

- Developing real-time coordination software for safety-critical environments.
- Focused on spatial context, live overlays, state synchronization, and reliability.

TECHNICAL PROJECTS

Pathfinding Visualizer | [Website](#), [GitHub](#)

WINTER 2026 | WINDSOR, ON

- Built React/Next.js visualizer for graph search algorithms.
- Implemented BFS, DFS, Dijkstra's, A*, and Greedy Best-First Search.

AI Strategy Optimizer | [Report](#), [GitHub](#)

WINTER 2026 | WINDSOR, ON

- Built Python simulation to optimize Prisoner's Dilemma strategies.
- Tested and evaluated Hill Climbing, Genetic Algorithm, and Simulated Annealing.

Shared Cart Manager | [Website](#), [GitHub](#)

SUMMER 2026 | WINDSOR, ON

- Built full-stack Next.js/Supabase app with authentication, database tables, and shared cart workflows.
- Implemented cost-splitting logic, dynamic state management, and responsive UI with Tailwind CSS.

Windsor Parking Helper | [GitHub](#)

SUMMER 2026 | WINDSOR, ON

- Built JavaScript Chrome extension using HTML, CSS, Chrome APIs, and browser storage.
- Implemented location-based parking lookup with lightweight UI and client-side logic.

HACKATHONS & CLUBS

Fineprint | [Devpost](#), [GitHub](#)

WINTER 2026 | WINDSOR, ON

- Built a Gemini-powered contract analysis tool with a 4-person team at ClubHacks.
- Awarded 1st Place overall and Best AI Project in a hackathon of 17 teams.

Green Tech | Founder & President

FALL 2024–PRESENT | WINDSOR, ON

- Founded and led 250+ member student technology club.
- Taught workshops on APIs, GitHub, web development, and sustainability.

Google Developer Student Clubs | [Core Lead](#)

FALL 2024 | WINDSOR, ON

- Helped lead developer events and technical workshops for students.
